

2 Channel Bluetooth Transmission Panel

Ostrich BD22

1. Ostrich BD22 is a Bluetooth and Dante interconversion, two-way stereo transmission, PoE-powered, wall-mounted transmission panel.

★2. Connecting with cell phones, iPad and other devices through Bluetooth interface, converting the received audio to network digital signal transmission through Dante.

★3. Power supply and audio transmission in one, using PoE network switch power supply, power supply and audio transmission through the network cable, without worrying about grounding loops or other audio problems common to consumer equipment. The main applicable scenarios are teleconferencing, audio media transmission, etc.

★4. Good compatibility, most smart phones on the market, apple ipad and android tablets, etc.

Bluetooth Interface	Bluetooth 5.0, Stereo input and output		
Dante interface	RJ45 connector, Stereo input and output		
Frequency Response	20Hz-20kHz	Sampling Rate	48KHz
THD+N	<0.005%	Background noise	-90dB
Power Consumption	2W	Operating Temperature	-10°C - +40°C
Operating Humidity	5-95%	Dimension(LxWxH)	123.5mm×79mm×35mm
Weight	156g
