- Conceived and designed by BEHRINGER Germany

When it's time to make recording history, you need the best audio interface you can get – and you need one you can count on. That's why we're kicking it up a notch with the amazing UM2, an ultra-compact 2 x 2, 24-Bit/48 kHz USB audio interface with a studio-grade XENYX Mic Preamp, combination XLR/TRS input for your vocal and direct instrument input (no DI required) and an additional 1/4" Instrument Input. The rich feature-set, which also boasts a powerful Phones Output for the Direct Monitoring of your session, plus 2 Outputs and USB-supplied power – makes the UM2 the best, and most-portable recording interface in its class!

48 kHz Precision

You take your tracks seriously, and the UM2 respects them too, providing 48 kHz resolution, for the amazingly-detailed and pristine recording quality your music deserves.

Studio in a Little Black Box

When those creative juices start flowing, you need a fast and easy way to get those musical ideas into your Mac or Windows computer – that's where the UM2 comes in. Just plug in a microphone, instrument or line level sources to the combination XLR/TRS input and additional 1/4" input for the ultimate in studio flexibility. The easy-to-use UM2 is ready whenever you are, ensuring an ultra-clean pathway to your computer's hard drive for stunningly-professional results – the perfect solution for the solo musician wanting to capture that next big hit!

Compose. Record. Mix. Share.

Tracktion is one of the world's fastest and easiest Digital Audio Workstations (DAW) for composing, recording, editing, mixing and sharing your music with the world. Featuring a single-screen interface, and pushing the envelope in design elegance, Tracktion brings together outstanding Pro DAW features, such as dynamic automation, unlimited track count, MIDI recording and support for VST and AU plug-ins. This powerful music production software gives you all the tools of an entire professional-grade recording studio. Learning a DAW has never been easier, thanks to their vast and readily available library of resources.

As our way of saying "Thank You", when you register your UM2 at behringer.com, we'll reward you with a complimentary download code for the full version of Tracktion 4. Recording and editing couldn't be easier. To learn more about Tracktion, visit <http://tracktion.com/support/videos>.

Share the Love. Visit tracktion.com for more.

Seamless Integration with Popular DAWs

The ultra-compact UM2 is totally compatible with virtually all popular recording software including Avid Pro Tools*, Ableton Live*, Steinberg Cubase*, etc., so you can record tracks directly into your favorite computer-based DAW – and mix and master to your heart's content.

U-PHORIA UM2

Audiophile 2x2 USB Audio Interface with
XENYX Mic Preamplifier

Sonically Superior Mic Preamps

The studio-grade XENYX Mic Preamp used in the UM2, has been praised by audio engineers all over the world for its hug-headroom, low-noise operation. These state-of-the-art mic pres represent a major step in the evolution of audio technology – and they can easily hold their own, even when compared to the most expensive stand-alone mic preamps. XENYX preamps offer a staggering 130 dB of dynamic range, with a bandwidth that extends from below 10 Hz to well above 200 kHz. Armed with these outstanding mic preamps, the UM2 provides such transparent, crystal-clear performance you just might think someone upgraded your mics while you weren't looking.

Convenient Monitoring

The UM2 Mix control allows direct monitor select, which means musicians can experience their performance clearly – resulting in a better performance and recording. With its powerful Phones Output, Direct Monitor Level control, Status and Signal Clip LEDs, plus USB-supplied power – the UM2 is ready to go wherever you go.

Getting Connected

On the UM2's front panel you'll find the a combination jacks that accept balanced XLR, 1/4" TRS and unbalanced 1/4" TR connections along with a 1/4" TRS. The rear panel is home to the +48 V phantom power switch, a USB 2.0 port for simple and easy connection to your computer and power, plus RCA playback options for direct connection to studio monitors. It just doesn't get any easier than this!

Free Would Be Nice!

Because you'll want to take full advantage of the UM2's recording and podcasting potential, we've included a download for all the software you'll need for audio recording, editing and even podcasting – all free of charge and downloadable from behringer.com. You'll be ready to go live on your PC or Mac right out of the box! We've also provided a free download of more than 150 virtual instruments and FX plug-ins – turning your computer into a powerful home-based or mobile recording studio from input to output.

Recording the Next Big Hit

The amazing UM2 ultra-compact 2 x 2, 24-Bit/48 kHz USB audio interface allows you to record the perfect vocal or instrument tracks directly to your computer, thanks to the XENYX Mic Preamp with +48 Volt phantom power for condenser microphones – and studio-grade 48 kHz converter for superb sound quality. Whether you're a singer-songwriter, producer on the go, or just need a rock-solid interface for running backing tracks at the gig, the ultra-dependable U-PHORIA UM2 will help you shine in the digital domain.

You Are Covered

We always strive to provide the best possible Customer Experience.
