

Headset for iPod[®], iPhone[®] and iPad[™].

Easier control over music and calls.

IE 8i

 **SENNHEISER**

IE 8i

The IE 8i mark a milestone in the development of ear-canal headsets. With their unique technology, the IE 8i enable the user to precisely fine-tune the bass response according to his or her preference. The new headset with remote unit enables you to control the latest generations of iPod and iPhone, or the iPad.* No need to fumble with the player – simply push the buttons integrated in the cable to control the volume, play, pause, or skip tracks. Used on the latest iPhone models, the unit also serves as a headset to answer, end, or reject calls and activates the Voice Control.

- Smart remote with mic: enhanced usability for the latest models of iPod, iPhone, and iPad
- Dynamic drivers with powerful neodymium magnets ensure outstanding sonic accuracy and clarity
- Excellent attenuation of ambient noise
