PRECAUTIONS

PLEASE READ CAREFULLY BEFORE PROCEEDING

Please keep this manual in a safe place for future reference.

WARNING

Always follow the basic precautions listed below to avoid the possibility of serious injury or even death from electrical shock, short-circuiting, damages, fire or other hazards. These precautions include, but are not limited to, the following:

Do not open

- This device contains no user-serviceable parts. Do not open the device or attempt to disassemble the internal parts or modify them in any way. If it should appear to be malfunctioning, discontinue use immediately and have it inspected by qualified Yamaha service personnel.

Water warning

- Do not expose the device to rain, use it near water or in damp or wet conditions. If any liquid such as water seeps into the device, turn off the power of the amplifier immediately. Then have the device inspected by qualified Yamaha service personnel.

Hearing loss

- When turning on the AC power in your audio system, always turn on the power amplifier LAST, to avoid hearing loss and speaker damage. When turning the power off, the

power amplifier should be turned off FIRST for the same reason.

Fire warning

- Do not place any burning items or open flames near the device, since they may cause a fire.

If you notice any abnormality

- If any of the following problems occur, immediately turn off the power of the amplifier.
 - Unusual smells or smoke are emitted.
 - Some object has been dropped into the device.
 - There is a sudden loss of sound during use of the device.
 - Cracks or other visible damage appear on the device.

Then have the device inspected or repaired by qualified Yamaha service personnel.

CAUTION

Always follow the basic precautions listed below to avoid the possibility of physical injury to you or others, or damage to the device or other property. These precautions include, but are not limited to, the following:

Location

- Do not place the device in an unstable position where it might accidentally fall over and cause injuries.
- Do not place the device in a location where it

may come into contact with corrosive gases or salt air. Doing so may result in malfunction.

- Avoid being near the device during a disaster, such as an earthquake. Since the device may fall and cause injury, stay away from the device quickly and move to a safe place.
- Before moving the device, remove all connected cables.
- Be sure to contact a professional installer, if the speaker installation requires construction work, and make sure to observe the following precautions.
 - Choose mounting hardware and an installation location that can support the weight of the device.
 - Avoid locations that are exposed to constant vibration.
 - Use the required tools to install the device.
 - Inspect the device periodically.

Connections

- Use only speaker cables for connecting speakers to the speaker jacks. Use of other types of cables may result in fire.

Handling caution

- Do not place heavy objects on it. Avoid applying excessive force to the buttons, switches or connectors to prevent injuries.
- Do not operate the device if the sound is distorting. Prolonged use in this condition could cause overheating and result in fire.

- Do not input excessively loud signals that may result in clipping in the amplifier or cause the following:
 - Feedback, when using a microphone
 - Continuous and extremely loud sound from a musical instrument, etc.
 - Continuous and excessively loud distorted sound
 - Noise caused by plugging/unplugging the cable while the amplifier is turned on

Even if the output power of the amplifier is lower than the power capacity of this device (program), damage to the device, malfunction or fire may occur.

- When choosing a power amplifier for use with this device, make sure that the output power of the amplifier is lower than the power capacity of this device (see Owner's Manual). If the output power is higher than the power capacity, malfunction or fire may occur.

Yamaha cannot be held responsible for damage caused by improper use or modifications to the device.

PA-8 2/2

NOTICE

To avoid the possibility of malfunction/ damage to the product, or damage to other property, follow the notices below.

Handling and maintenance

When using a high-impedance speaker connection, make sure the audio signal is passed through an 60 Hz or above high-pass filter before being input to the speakers.

Do not install the device to excessive dust or vibration, or extreme cold or heat (such as in direct sunlight, near a heater, or in a car during the day), in order to prevent the possibility of panel disfiguration, unstable operation, or damage to the internal components.

Do not place vinyl, plastic or rubber objects on the device, since this might discolor the device.

When cleaning the device, use a dry and soft cloth. Do not use paint thinners, solvents, cleaning fluids, or chemical-impregnated wiping cloths.

Be sure to observe the amplifier's rated load impedance (see Owner's Manual), particularly when connecting speakers in parallel. Connecting an impedance load outside the amplifier's rated range can damage the amplifier.

Protection Circuit

This speaker system has an internal protection circuit that shuts off the speaker unit when an excessive input signal is applied. If the speaker unit emits no sound, reduce the volume level of the amplifier immediately. The sound will return automatically in several seconds.

Do not place the speaker face down with the grille attached, as deformation of the grille may result.

When placing the speaker face down, always place it on a flat surface.

Avoid touching or allowing objects to come in contact with the speaker diaphragms.

Information

About this manual

The illustrations as shown in this manual are for instructional purposes only.

The company names and product names in this manual are the trademarks or registered trademarks of their respective companies.

Regarding disposal

This product contains recyclable components. When disposing of this product, please contact the appropriate local authorities.

Introduction

Thank you for purchasing a YAMAHA VXS3SB or VXS3SW (hereafter "VXS3S") speaker system. This product is a subwoofer designed for playing background music in a retail or commercial setting. This manual explains to the installer how to install the product. Additionally, the product can be installed in a ceiling using an optional CMA3SB or CMA3SW (hereafter "CMA3S"). To obtain maximum performance from your YAMAHA speaker system, we recommend that you read this Owner's Manual thoroughly before use. Keep this manual in a safe place for future reference.

Main features

Uses Yamaha's unique SR-Bass™ technology* to provide realistic sound and amazing energy in a small speaker.

- Supports both low-impedance and high-impedance connection in a single speaker.
- Features connection terminals for satellite speakers, allowing you to keep the number of power amplifier channels used to a minimum.

* SR-Bass™ represents the evolution of passive-type diaphragm technology. It is Yamaha's unique bass reproduction technology that efficiently converts the energy inside the speaker cabinet into low-frequency sound.

* The contents of this manual apply to the latest specifications as of the publishing date. To obtain the latest manual, access the Yamaha website then download the manual file.

Included accessories

VXS3S

Optional accessories

Ceiling mount adaptor CMA3S

Connections

Connect the power amplifier and the VXS3S

Connect the OUTPUT of the power amplifier to the INPUT of the subwoofer.

Set the line voltage/impedance and power

Select the line voltage/impedance (100V/70V/8Ω) and input wattage power tap when using a 100V/70V line distributed system.

NOTICE

- When connecting speakers with high impedance, check the tap selector switch settings indicated around the switch, and then set the tap according to the number of satellite speaker connections (NONE/x2/x4) and the output (W). Make sure that the input total of each speaker does not exceed the rated output of the power amplifier.
- Do not set the tap selector switch to the "X" position.
- When using a low impedance connection, set the tap selector switch to the "8Ω" position.

If the setting is incorrect, it may cause malfunction of the speaker and amplifier.

- Make sure the amplifier is switched off before operating the tap selector switch.

Connecting satellites

This product features built-in output terminals for connecting satellite speakers. You can connect full-range speakers to the satellite terminals and use them as mid and high-range speakers.

NOTICE

- We recommend the use of 2 or 4 satellite speakers.
- Use caution when mixing 2- and 4-speaker satellite systems, as there may be differences in volume.

■ VXS3S+VXS1ML (×4) low impedance connection

This is a basic system.

■ VXS3S+VXS1ML (×2) low impedance connection

Connect the speakers as shown below when using only 2 satellite speakers.

NOTICE

When connecting satellites at low impedance, the combined impedance is 4Ω (when connecting 4 satellites) or 3.5Ω (when connecting 2 satellites). Make sure that the power amplifier is compatible with these impedances. If the power amplifier is not compatible, the power amplifier may malfunction.

■ VXS3S+VXS1ML high impedance connection

This is an example of a system where multiple subwoofers are connected using high impedance connections. Additionally, multiple satellite systems can be connected using just one of the power amplifier's channels.

Set the tap selector switch of the VXS3S according to the number of satellite speaker connections (NONE/x2/x4) and output (W) while referring to the selector switch inscription. For details, refer to page 6.

NOTICE

- When connecting speakers with high impedance, be sure that the rated output of the power amplifier exceeds the input total of each speaker.

For details, refer to the explanation of high-impedance connection at the following URL.

Yamaha Pro Audio site, "Better Sound for Commercial Installation"

- When installing speakers, make sure the power amplifier is turned off.
- When connecting at high impedance, the signals inputted into the speaker should be sent through a high-pass filter set to 60Hz or greater.

Installing on a wall or ceiling

You can use the included mounting bracket to install the speaker on a wall or ceiling. Before installation, make sure the installation area can support the weight of the speaker.

NOTICE

When installing speakers, make sure the power amplifier is turned off.

NOTE

If you will paint the speaker, refer to "Painting" on page 16.

Speaker orientation

Install the speaker so that the Δ mark on the mounting bracket is facing the Δ mark on the speaker.

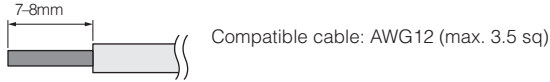

CAUTION

When installing the speaker in a vertical orientation, if the Δ mark on the mounting bracket is pointing down, the speaker cannot be secured to the mounting bracket and it may fall. Do not install the speaker so that the Δ mark points down.

Pre-installation (cable preparation)

Strip the cable insulation as shown in the figure and connect the cables.

NOTE

- Do not use solder to plate stranded wires, as this may cause the wires to break.
- Run the speaker cables to the installation area before installing the speaker.

1 Attaching the mounting bracket to the wall or ceiling

1-1 Determine the speaker installation location.

1-2 Refer to the figure below and determine where the mounting bracket will be installed and where the cables will be fed.

1-3 If you want to add space between the wall and the speaker, attach spacers to the mounting bracket.

When securing at 4 points

When securing at 1 point (center)

1-4 Attach the mounting bracket to the wall or ceiling.

The 4 slots are for M6 screws, and the center hole's diameter is 11 mm.

1-5 Feed the cables from the wall or ceiling.

2 Attaching the safety wire

2-1 Attach the safety wire to the wall or ceiling.

⚠ CAUTION

- Use the included safety wire.
- Attach safety wire high enough so that there is not too much slack in the wire.
- If the included safety wire is not long enough, consider the weight of the speaker and the installation conditions, and procure an appropriate safety wire.

- 2-2** Attach the safety wire to the speaker.
Attach the safety wire so that its clasp fits inside the groove on the speaker.

3 Connecting the cables

- 3-1** Use a Phillips screwdriver to loosen the screws on the barrier strip, insert the cables, and then tighten the screws. For information about connecting the cables, refer to "Connections" on page 6. Make sure the cables are secure and cannot be pulled out.

4 Secure the speaker to the mounting bracket

- 4-1** Remove the grille.
4-2 Attach the speaker so that the Δ mark on the mounting bracket is facing the Δ mark on the speaker.

- 4-3** Slide the speaker about 10mm in the direction shown to temporarily secure the speaker.

- 4-4** Use the supplied two screws to secure the speaker.

⚠ CAUTION

Make sure you tighten the screws.

NOTICE

When installing the speaker, make sure you do not touch the flaps or subject the speaker to strong shocks. If the flaps become indented, the sound may become distorted.

5 Setting the line voltage/impedance and power

- 5-1** Set the line voltage/impedance (100V/70V/8Ω) and input wattage when using a 100V/70V line distributed system. For details, refer to page 6.

6 Attach the grille

- 6-1** Align the grille to the front of the cabinet and attach the grille.

⚠ CAUTION

If the grille is not attached properly, it may fall off after the speaker is installed.

Installing in a ceiling (using the CMA3S)

You can use the optional VXS3S ceiling mount adaptor to install the speaker in a ceiling.

1 Cut a hole in the ceiling

- 1-1** Use the included cutout template (350mm×210mm) to mark the outline of the hole on the ceiling.

NOTE

Make sure to use the included cutout template; if the hole size is not correct, you will not be able to install the speaker.

- 1-2** Cut along the outline and cut the hole.
When cutting the hole, be careful to prevent debris or dust from entering your eyes.

2 Attach the square ring and rails to the inside surface of the ceiling.

- 2-1** Insert the two tile rails through the cut hole and place them on the ceiling surface within your reach. Be sure that each tile rails are oriented as shown in the illustration.
- 2-2** Insert the square-ring through the cut hole.

- 2-3** Secure the square-ring and tile rails with supplied two screws through either slot of both square-ring brackets.

3 Attach the ceiling mount adaptor to the speaker.

3-1 Remove the grille.

3-2 Insert the speaker into the ceiling mount adaptor, and secure the speaker using the supplied four screws.

4 Attach the safety wire

4-1 Refer to Step 2 on page 10.

Use the safety wire included with the CMA3S.

5 Connecting the cables

5-1 Feed the cables through the hole in the ceiling.

5-2 Run the cables through the terminal cover.

5-3 Use a Phillips screwdriver to loosen the screws on the barrier strip, insert the cables, and then tighten the screws. For information about connecting the cables, refer to "Connections" (page 6). Make sure the cables are secure and cannot be pulled out.

5-4 Tighten the screws and attach the terminal cover.

6 Secure the speaker to the ceiling

6-1 Push the speaker into the ceiling, taking care not to pinch the cables.

NOTICE

When installing the speaker, make sure you do not touch the flaps or subject the speaker to strong shocks. If the flaps become indented, the sound may become distorted.

6-2 While lifting the speaker up slightly, use a Phillips screwdriver to turn the screws clockwise and tighten the attachments screws. The clamp opens when you begin turning the screw. As you continue to turn the screw, the clamp slides down and pulls the speaker into the ceiling.

NOTE

If the clamp is difficult to open, turn the screw counter-clockwise one-half revolution; this will make it easier to open.

⚠ CAUTION

- To prevent stripping the screws, do not overtighten the screws.
- Do not turn any screws other than the attachment screws. This may cause the speaker to fall or malfunction.

7 Setting the line voltage/impedance and power

7-1 Refer to page 6.

8 Attach the hole cover sheets

8-1 Attach the included hole cover sheets to the screw holes.

9 Attach the grille

9-1 Align the grille to the front of the cabinet and attach the grille.

⚠ CAUTION

If the grille is not attached properly, it may fall off after the speaker is installed.

Painting

When painting the VXS3S, we recommend using acrylic lacquer paint. Refer to the paint's instructions for details on how to apply the paint.

CAUTION

Work in an area that has adequate ventilation.

NOTICE

- Painting procedures often require the use of volatile solvents that can cause fire. Follow all necessary safety precautions to avoid any risk of a fire or accident.
- Yamaha cannot be held responsible for any damage to the speaker as a result of painting.

Painting the grille

- 1 Remove the grille from the speaker, taking care not to scratch it.
- 2 Remove the emblem on the front of the grille.
The emblem is attached by adhesive tape.
- 3 Tuck the included masking sheet under the crosspiece on the back of the grille and insert the masking sheet.

NOTE

Make sure the areas shown below are covered.

- 4 Apply the paint to the grille.

NOTE

Make sure the holes in the grille do not become clogged with paint. If the holes become clogged with paint, sound quality may be affected.

- 5 When the paint is completely dry, remove the masking sheet and attach the emblem to the grille.
Make sure the emblem is attached in the correct position.
- 6 Attach the grille to the speaker.

Painting the speaker enclosure

- 1 Remove any dust or dirt with a lint-free cloth.
Do not sand the enclosure.
- 2 Use spray paint to paint the enclosure.
Cover the baffle and connectors using masking materials to avoid paint contact.

- 3 Allow the paint to dry completely.

Painting the ceiling mount adaptor

- 1 Wipe off any dirt from the ceiling mount adaptor before painting it. Do not file it down.
- 2 Align the included masking sheet with the posts of the ceiling mount adaptor and insert the masking sheet.

- 3 Use masking tape to cover the posts and the screw heads (8 locations total).

NOTE

Use masking tape as necessary to mask other areas.

- 4 Spray the paint onto the ceiling mount adaptor and the hole cover sheets.

- 5 When the paint is completely dry, remove the masking sheet.

Information for users on collection and disposal of old equipment:

This symbol on the products, packaging, and/or accompanying documents means that used electrical and electronic products should not be mixed with general household waste. For proper treatment, recovery and recycling of old products, please take them to applicable collection points, in accordance with your national legislation.

By disposing of these products correctly, you will help to save valuable resources and prevent any potential negative effects on human health and the environment which could otherwise arise from inappropriate waste handling.

For more information about collection and recycling of old products, please contact your local municipality, your waste disposal service or the point of sale where you purchased the items.

For business users in the European Union:

If you wish to discard electrical and electronic equipment, please contact your dealer or supplier for further information.

Information on Disposal in other Countries outside the European Union:

This symbol is only valid in the European Union. If you wish to discard these items, please contact your local authorities or dealer and ask for the correct method of disposal.

(weee_eu_en_02)

Verbraucherinformation zur Sammlung und Entsorgung alter Elektrogeräte

Befindet sich dieses Symbol auf den Produkten, der Verpackung und/oder beiliegenden Unterlagen, so sollten benutzte elektrische Geräte nicht mit dem normalen Haushaltsabfall entsorgt werden.

In Übereinstimmung mit Ihren nationalen Bestimmungen bringen Sie alte Geräte bitte zur fachgerechten Entsorgung, Wiederaufbereitung und Wiederverwendung zu den entsprechenden Sammelstellen.

Durch die fachgerechte Entsorgung der Elektrogeräte helfen Sie, wertvolle Ressourcen zu schützen, und verhindern mögliche negative Auswirkungen auf die menschliche Gesundheit und die Umwelt, die andernfalls durch unsachgerechte Müllentsorgung auftreten könnten.

Für weitere Informationen zum Sammeln und Wiederaufbereiten alter Elektrogeräte kontaktieren Sie bitte Ihre örtliche Stadt- oder Gemeindeverwaltung, Ihren Abfallentsorgungsdienst oder die Verkaufsstelle der Artikel.

Information für geschäftliche Anwender in der Europäischen Union:

Wenn Sie Elektrogeräte ausrangieren möchten, kontaktieren Sie bitte Ihren Händler oder Zulieferer für weitere Informationen.

Entsorgungsinformation für Länder außerhalb der Europäischen Union:

Dieses Symbol gilt nur innerhalb der Europäischen Union. Wenn Sie solche Artikel ausrangieren möchten, kontaktieren Sie bitte Ihre örtlichen Behörden oder Ihren Händler und fragen Sie nach der sachgerechten Entsorgungsmethode.

(weee_eu_de_02)

Informations concernant la collecte et le traitement des déchets d'équipements électriques et électroniques

Le symbole sur les produits, l'emballage et/ou les documents joints signifie que les produits électriques ou électroniques usagés ne doivent pas être mélangés avec les déchets domestiques habituels.

Pour un traitement, une récupération et un recyclage appropriés des déchets d'équipements électriques et électroniques, veuillez les déposer aux points de collecte prévus à cet effet, conformément à la réglementation nationale.

En vous débarrassant correctement des déchets d'équipements électriques et électroniques, vous contribuerez à la sauvegarde de précieuses ressources et à la prévention de potentiels effets négatifs sur la santé humaine qui pourraient advenir lors d'un traitement inapproprié des déchets.

Pour plus d'informations à propos de la collecte et du recyclage des déchets d'équipements électriques et électroniques, veuillez contacter votre municipalité, votre service de traitement des déchets ou le point de vente où vous avez acheté les produits.

Pour les professionnels dans l'Union européenne :

Si vous souhaitez vous débarrasser des déchets d'équipements électriques et électroniques, veuillez contacter votre vendeur ou fournisseur pour plus d'informations.

Informations sur la mise au rebut dans d'autres pays en dehors de l'Union européenne :

Ce symbole est seulement valable dans l'Union européenne. Si vous souhaitez vous débarrasser de déchets d'équipements électriques et électroniques, veuillez contacter les autorités locales ou votre fournisseur et demander la méthode de traitement appropriée.

(weee_eu_fr_02)

Información para usuarios sobre la recogida y eliminación de los equipos antiguos

Este símbolo en los productos, embalajes y documentos anexos significa que los productos eléctricos y electrónicos no deben mezclarse con los desperdicios domésticos normales.

Para el tratamiento, recuperación y reciclaje apropiados de los productos antiguos, llévelos a puntos de reciclaje correspondientes, de acuerdo con la legislación nacional.

Al deshacerse de estos productos de forma correcta, ayudará a ahorrar recursos valiosos y a impedir los posibles efectos desfavorables en la salud humana y en el entorno que de otro modo se producirían si se tratan los desperdicios de modo inapropiado.

Para obtener más información acerca de la recogida y el reciclaje de los productos antiguos, póngase en contacto con las autoridades locales, con el servicio de eliminación de basuras o con el punto de venta donde adquirió los artículos.

Para los usuarios empresariales de la Unión Europea:

Si desea deshechar equipos eléctricos y electrónicos, póngase en contacto con su vendedor o proveedor para obtener más información.

Información sobre la eliminación en otros países fuera de la Unión Europea:

Este símbolo solo es válido en la Unión Europea. Si desea deshechar estos artículos, póngase en contacto con las autoridades locales o con el vendedor y pregúnteles el método correcto.

(weee_eu_es_02)

Informazioni per gli utenti sulla raccolta e lo smaltimento di vecchia attrezzatura

Questi simboli sui prodotti, sull'imballaggio e/o sui documenti che li accompagnano, indicano che i prodotti elettrici ed elettronici non devono essere mischiati con i rifiuti generici.

Per il trattamento, il recupero e il riciclaggio appropriato di vecchi prodotti, si prega di portarli ai punti di raccolta designati, in accordo con la legislazione locale.

Smaltendo correttamente questi prodotti si potranno recuperare risorse preziose, oltre a prevenire potenziali effetti negativi sulla salute e l'ambiente che potrebbero sorgere a causa del trattamento improprio dei rifiuti.

Per ulteriori informazioni sulla raccolta e il riciclaggio di vecchi prodotti, si prega di contattare l'amministrazione comunale locale, il servizio di smaltimento dei rifiuti o il punto vendita dove sono stati acquistati gli articoli.

Per utenti imprenditori dell'Unione europea:

Se si desidera scartare attrezzatura elettrica ed elettronica, si prega di contattare il proprio rivenditore o il proprio fornitore per ulteriori informazioni.

Informazioni sullo smaltimento negli altri Paesi al di fuori dell'Unione europea:

Questi simboli sono validi solamente nell'Unione Europea; se si desidera scartare questi articoli, si prega di contattare le autorità locali o il rivenditore e richiedere informazioni sulla corretta modalità di smaltimento.

(weee_eu_it_02)

Informações para os utilizadores relativos à recolha e eliminação de equipamentos usados

Este símbolo, presente em produtos, embalagens e/ou incluído na documentação associada, indica que os produtos elétricos e eletrônicos usados não devem ser eliminados juntamente com os resíduos domésticos em geral.

O procedimento correto consiste no tratamento, recuperação e reciclagem de produtos usados, pelo que deve proceder à respetiva entrega nos pontos de recolha adequados, em conformidade com a legislação nacional em vigor.

A eliminação destes produtos de forma adequada permite poupar recursos valiosos e evitar potenciais efeitos prejudiciais para a saúde pública e para o ambiente, associados ao processamento incorreto dos resíduos.

Para mais informações relativas à recolha e reciclagem de produtos usados, contacte as autoridades locais, o serviço de eliminação de resíduos ou o ponto de venda onde foram adquiridos os itens relevantes.

Informações para utilizadores empresariais na União Europeia:

Para proceder à eliminação de equipamento elétrico e eletrónico, contacte o seu revendedor ou fornecedor para obter informações adicionais.

Informações relativas à eliminação em países não pertencentes à União Europeia:

Este símbolo é válido exclusivamente na União Europeia. Caso pretenda eliminar este tipo de itens, contacte as autoridades locais ou o seu revendedor e informe-se acerca do procedimento correto para proceder à respetiva eliminação.
