

# N-VOL10K-W

10 K-ohm volume control, white

The N-VOL10K volume controller is especially made for the CHAMP-3D amplifier and other future products. You can control the volume of your compatible amplifier remotely and be ensured that the maximum sound level will not be exceeded.

## TECHNICAL SPECIFICATIONS

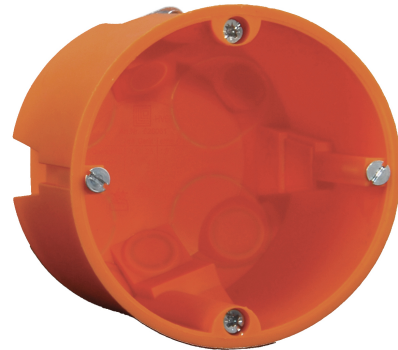

height in mm	90	depth in mm	85
width in mm	90	stereo/mono	mono
steps	0 (Linear)	24 volt priority relais	No
mounting	screw and clamp	connector type	euroblock 3-pole
max. cable in mm <sup>2</sup>	2.5	weight in gr	150
impedance in ohms	10k	applicable low impedance	Yes
applicable 100V	No	colour	white
Net weight product (kg)	0,15
