Connect

Connect the EVO 16 to your computer using the USB cable provided. Next, connect the unit to mains power using the included IEC power cable. Once successfully connected, the onboard LED screen will illuminate and play a short start-up animation alongside the Main Volume LED ring illuminating.

Install Drivers

In order to start using your EVO 16, you will need to download and install the latest drivers, which can be found at evo.audio/evo16/downloads. Once the drivers are installed, you may be prompted to update the unit's firmware. A full installation guide can be found in the user manual which is available to download via our website.

The Features

1. 8 x EVO Mic Preamps
2. 2 x JFET Instrument Inputs
3. 2 x Independent Headphone Outputs
4. 8 x Line Outputs

7. Phantom Power
8. Instrument Input Button
9. Main Volume Control
10. Main Output Select
11. Programmable Function Button
12. Headphones 1+2 Output Select
13. High-Res LCD Screen
14. Word Clock Output
15. USB2.0 (USB-C Connection)
16. Power Supply

ARC

Register your product and download free software and plugins to help get you started. For more details: evo.audio/arc

Smartgain

EVO 16's most exciting and game changing feature is 'Smartgain'. Start playing or singing and Smartgain mode will automatically set the level of your microphones.

1. Press the Smartgain button to begin. The Smartgain LED will illuminate green and the input channel LEDs (1, 2, 3 & 4 etc.) will begin to flash (indicating a channel must be selected). 
2. Press one of the input channel buttons (or two, if setting Smartgain for a stereo pair) to select the channels to be adjusted. 
3. Press the Smartgain button again to begin the process. 
4. The Smartgain LED will start flashing red and the volume wheel LED's will illuminate indicating that Smartgain Mode is now listening. 
5. Start playing or performing into the microphone. 

6. Smartgain Mode will dial in the correct levels and when complete the Smartgain button will flash green twice to indicate it has been

successful. 

7. You are now ready to start recording.
